Collection Description

Scope and content note

The Kansas City Aviation Department Collection consists of selected prints made from a set of photographs housed within the Aviation Department of the city of Kansas City, Missouri. That department processed their collection in the summer of 1999, and the library was offered the opportunity to duplicate selected images for inclusion in Missouri Valley Special Collections. For the library's collection, 17 black and white and 12 color images were selected. These photographs measure 8" x 10" with one measuring 10" x 10".

The images center on Municipal, Kansas City International, and Richards-Gebaur airports. Photographs of the downtown skyline mainly from the mid-1970s are also included. The collection also has a printed index to the photographs and slides at the Aviation Department, current through June 1999.
