Collection Description

Scope and content note

This collection contains four separate record/ledger books identified as quantity books that contain information concerning the construction of certain bridges in Kansas City, Missouri. There is no identification in the books as to what city office or department maintained these records. The donor stated at the time of the donation that he acquired the books at the Kansas City (Mo.) City Hall, and that he acquired them as they were being discarded.

Bridges/viaducts that are mentioned in these records include: 12th Street Trafficway (Books 1 & 2), Wyandotte Street Viaduct at 31st Street, viaduct at 46th and Woodland, viaduct at 12th Street and Beardsley Road both north and south, McGee Street Trafficway at 26th Street, Raytown Road at Shuttle Creek bridge, Brush Creek at State Line bridge, Brush Creek at Woodland Avenue bridge, Brush Creek at Troost Avenue bridge, and 50th and Blue River bridge.

The quantity listings are for such items as sand, lumber, concrete, steel, stone, crushed rock, excavation, etc. Also included are the names of a number of construction-related businesses that were contracted to complete various parts of the bridge construction. There are also various diagrams scattered throughout the books, some depicting grading, approaches, as well as other features.

Collection Inventory
